Courtney A. Smith, M.D. M.S.

Email: Courtneysmith@mednet.ucla.edu

EDUCATION

2027 – 2030
Resident | Harvard Combined Dermatology Residency Program

2026 – 2027
Resident | Mission Community Hospital Transitional Year Program

2021 – 2026
M.D. | UCLA David Geffen School of Medicine
David Geffen Medical Scholarship recipient

2017 – 2018
Graduate Student | The Scripps Research Institute

2014 – 2017
M.S. in Chemistry | University of South Florida

LEADERSHIP

2019 – present:
Founder of Glimmering Bridges
Grassroots Volunteer Organization

2020 – 2022
Orange County Commissioner District 3
Behavioral Health Advisory Board

TECHNICAL SKILLS

Languages: SQL, JavaScript, R, Python, SAS, Stata

Database: REDCap (DB Design, API Scripting)

Tools: VS Code, Git, SSMS (VA VINCI), RStudio, Pandas, NumPy, Regex, Scikit-learn, spaCy, Hugging Face Transformers

PUBLICATIONS

Peer-Reviewed Publications

RESEARCH EXPERIENCE

Researcher | UCLA David Geffen School of Medicine | Jan 2022 – Present

Dermatologic Treatment and Outcomes (*Mentors: Dr. Carol Cheng, Dr. Marcia Hogeling*) | Jan 2022 – Present

- **PeDRA-funded multi-center acne study ($4,300): Constructing a hybrid machine learning and rule-based natural language processing system** to extract detailed clinical data prescriptions and notes for the analysis of acne treatment pathways and prescribing patterns in transgender adolescents under the mentorship of Dr. Marcia Hogeling.
- **Led the design of a retrospective study on acne treatment** in transgender adolescents, authored the IRB protocol and secured institutional study approval.
- **Translated clinical research objectives on acne treatment** into a detailed data extraction protocol, guiding data scientists towards creation of a transgender adolescent cohort.
- **Developed the analytical plan** to assess oral antibiotic guideline adherence for acne treatment in transgender adolescents, provisioning a dataset to support future research initiatives.
- **Analyzed isotretinoin treatment retention** during the COVID-19 pandemic, utilizing propensity-score matching and multivariate regression to assess outcomes by demographics.

Research Fellow | Emory University, Department of Dermatology | June 2024 – May 2026

Mentor: Dr. Howa Yeung

- **PeDRA-funded multi-center acne study ($25,000):** Investigated acne epidemiology in transgender adolescents across four clinical sites.
- **Authored a study on sexual and gender minority skin cancer survivorship research**, analyzing treatment experiences, healthcare barriers, and survivorship resources among skin cancer survivors participating in the OUT National Cancer Survey (Archives of Dermatological Research, 2025).
- **Authored first-author reviews** on hormonal acne therapies (Dermatology and Therapy, 2025) and on common dermatologic needs in transgender and gender-diverse adolescents (Current Pediatrics Reports, 2025).
- **Engineered a rule-based Natural Language Processing pipeline** in Python to parse and categorize unstructured acne prescription text for over 10,000 doxycycline prescriptions. The tool was used to classify daily doses for analysis of real-world prescribing patterns and treatment pathways.
- **Developed an interactive REDCap-based acne severity rating system:** web application with multi-image zoom functionality, user-friendly keyboard shortcuts, and integrated training modules.
- **Architected the infrastructure for a remote reliability study**, featuring automated data capture from an interactive REDCap application and progress tracking for acne clinical research aimed to improve inclusion of transgender adults.
- **Automated a data pipeline** to rapidly generate medication lists specific to dermatologic conditions for the analysis of pseudofolliculitis barbae management patterns using VA Corporate Warehouse data, reducing analysis time by 10 hours per week.
- **Authored a study comparing psychosocial outcomes by history of gender-affirming hair removal in gender-diverse adults** assigned male at birth (Journal of the American Academy of Dermatology, 2025).

Skin Cancer Epidemiology (*Mentor: Dr. Lawrence Kuklinski*) | Jan 2023 – Jan 2025

- **Iron status and skin cancer association study** using NHANES data (20,000+ participants) (Clinical Cosmetic and Investigational Dermatology, 2025)

- **Skin cancer diagnosis associated with asthma and hay fever**: nationwide cross-sectional analysis (Archives of Dermatological Research, 2024)
- Designed and conducted study involving advanced statistical modeling including multiple imputation, marginal effects analysis, complex survey analysis

Surgical Oncology (*Mentor: Dr. Nimmi Kapoor*) | May 2023 – Oct 2024

- Breast cancer surgical outcomes and wire localization techniques (Two co-authored publications)
- Built comprehensive R database (200+ patients) and completed descriptive and inferential statistics

Graduate Research Experience | 2014 – 2018

Organic Chemistry

Graduate Research – The Scripps Research Institute (*Mentor: Dr. Phil Baran*) | Oct 2017 – Apr 2018

- **Synthetic methodology development:** Designed nickel-catalyzed cross-coupling reactions for sterically challenging quaternary carbon formation using novel organozinc reagents (*Angewandte Chemie International Edition*, 2018)
- Synthetic chemistry experience applicable to developing new therapies for dermatology

Graduate Research – University of South Florida (*Mentors: Dr. X. Michael Shi, X. Peter Zhang*) | Jun 2014 – Jul 2017

- **Catalyst synthesis and reaction development:** Synthesized and optimized gold-triazole catalysts for challenging C-C bond formations
- First-author publication and journal cover in *Chemical Communications* - designed novel gold-catalyzed vinyl ether hydroalkynylation pathway
- Method optimization: Developed reaction conditions and mechanistic understanding for previously unknown transformations

Early Research Experience | 2008 – 2014

Undergraduate Research – University of South Florida (*Mentor: Dr. Bill Baker*) | Oct 2011 – May 2014

- **Natural products drugs:** Extracted and structurally characterized bioactive compounds from *Myrica cerifera* for Alzheimer's disease therapeutics. Led large-scale compound isolation and purification workflows
- **Analytical chemistry:** Maintained and operated HPLC systems while training laboratory users on advanced instrumentation
- Third-author publication in *ACS Chemical Biology* on tau protein clearance mechanisms - contributing to neurodegenerative disease research

Gap Year Research – Moffitt Cancer Center (*Mentor: Dr. Mark Alexandrow*) | May 2008 – Aug 2009

- **Cancer cell cycle research**: Investigated pre-replication complex protein expression patterns in breast cancer cell lines in translational cancer research at a comprehensive cancer center
- **High-volume data**: Managed and analyzed data from 1,000+ tissue samples using protein biochemistry techniques
- **Biochemical techniques**: Performed protein extraction, western blot analysis, and immunofluorescence microscopy

VOLUNTEER

Founder of Glimmering Bridges – Grassroots Volunteer Organization **Nov 2019 – present**

Venice Family Clinic – Dermatology Specialty Clinic	**Oct 2022 – Oct 2025**
Council on Aging – Ombudsman Program	**Feb 2020 – Jun 2021**
Crisis Text Line – Crisis Counselor	**Jan 2020 – Jul 2021**
Red Cross – Blood Bank Ambassador and Screener	**Apr 2020 – Jul 2020**
School on Wheels Tutor	**Jan 2020 – Feb 2021**
SHARP Hospice Volunteer	**Sep 2018 – Dec 2018**
Tampa General Hospital Volunteer	**Oct 2012 – Feb 2014**
LGBTQ Haven Clinic	**Oct 2012 – Feb 2014**

WORK EXPERIENCE

Full-Time Research Fellow | Emory University, Department of Dermatology | Aug 2024 – July 2025

- **PeDRA-funded research leadership ($25,000):** Lead student conducting acne epidemiology study in transgender adolescents involving data from multiple Kaiser Permanente clinical sites
- Collaborated on multiple studies in LGBTQ+ dermatologic care, skin cancer survivorship disparities, and acne treatment patterns
- **Developed interactive REDCap survey with acne lesion counting module**, interactive user interface and integrated training using Javascript programming language.

Part-Time Analyst | APEX Strategies Group | Jan 2019 – Jan 2021

- Contributed to research reports and strategic decision-making for consulting clients
- Maintained client information systems and supported business development activities

Full-Time Pediatric Medical Scribe | Neighborhood Healthcare | Jul 2018 – Dec 2018

- Maintained accurate patient records in electronic medical systems during pediatric encounters
- Supported clinician efficiency through real-time documentation and chart management

Full-Time Graduate Teaching Assistant | University of South Florida | Aug 2014 – Jul 2015

- Instructed General Chemistry II, Organic Chemistry I, and Analytical Chemistry lab courses for 100+ undergraduate students each semester
- Provided individualized support for lab students and graded assessments for undergraduate chemistry courses

Part-Time Cashier | The Fresh Market | Jul 2010 – Apr 2011

- Operated registers to process customer transactions
- Organized receipts, maintained clean work areas, and assisted other departments with food preparation and cleaning tasks

Part-Time Academic Tutor | Mount Greylock Regional School | Sep 2009 – Apr 2010
